## **HK Express Records 77% Passenger Growth in the Month of May Maintains #1 On-Time Airline in Hong Kong**

**Hong Kong, 19 June 2015** HK Express, Hong Kong's low-fare airline, has revealed that it continued to achieve significant year-on-year growth in terms of passenger numbers for the month of May.

The airline carried 164,124 passengers in the month of May, which represents a 77% growth in the same month compared to 2014.

Andrew Cowen, CEO of HK Express said, "North-Asia remains a robust growth area for HK Express; plus we recently launched new service to Yinchuan in early May. The public holidays at the beginning of May also stimulated strong travel demand, which brought us a dramatic leap in passenger load factor."

"We are delighted to announce the outstanding passenger growth in the month of May; we have now carried over 1.6m passengers in the last 12 months alone. With our growing fleet of aircraft and routes, we will see continued double digit growth year-on-year." Cowen added.

HK Express also continued to maintain its number one position among all Hong Kong-based airlines in terms of On-Time Performance (OTP). In May 2015, according to independent flight statistic monitoring website [www.flightstats.com](http://www.flightstats.com), HK Express achieved an overall result of 71% beating all other Hong Kong based competitors.
